SPINTECH

FROM IMAGE TO INSIGHT.™

Discover what your current MR imaging is missing.

Quantitative MR image processing software driving next level clinical performance.

Uses existing scan data

Integrates with PACS

Automatic "black box" processing platform

Near-instant quantitative reports at point of care

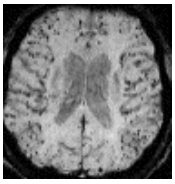
SPINTECH

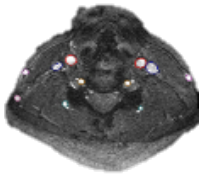
FROM IMAGE TO INSIGHT.™

SPIN-Pro: Quantitative Neuro-Imaging Software Platform



SWI

Enhanced visualization of iron and oxygen concentration (510k pending)

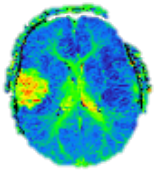


FLOW

Advanced blood flow quantification

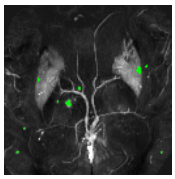
SWIM

Quantification of iron, calcium, and oxygen concentration



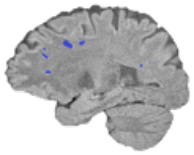
PWI

Quantification of oxygen delivery to the brain



CMB

Automatic identification of cerebral microbleeds



WMH

White matter lesion detection and quantification
