

Desks & Workstations For Radiology

As the leading provider of ergonomic radiology desks, Xybix protects the mind and body, drives productivity, and preserves expensive equipment. Radiologists use our desks at more than 100 major healthcare providers such as Kaiser Permanente, UCHealth, and the Kettering Health Network.

PAIN-FREE IMAGING DESKS – Because Reading Shouldn't Hurt

Model Shown
72x44 MSeries

Workstation Lift System

Ultra-quiet, large-profile lifting columns support over 300lbs per surface allowing keyboard and monitor surfaces to lift independently for precise ergonomic comfort.

Dual-Height Adjustable Work Surfaces

Finding your optimum ergonomic seated or standing position is now easier than ever with smooth monitor and keyboard surfaces that feature independent height adjustment.

Monitor Adjustment & Rollervision™

Proper focal depth adjustment is a key metric in achieving ergonomic health. You can move your monitor array forward or backward 10" in seconds to reduce eyestrain and increase comfort.

Desks & Workstations For Radiology

Data Dock Technology Hub

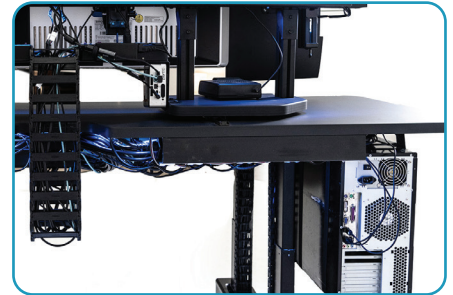

Easily connect keyboards, mice, and other devices to your PC from a convenient panel behind your work-surface. Options include: USB, CAT6, phone and data equipment + more.

Storage Shelf w/ USB Charging

Store items you need to access quickly and power/charge* your USB devices with this convenient storage shelf built into all Xybix healthcare desks.

*Shelf USB ports provide power only

Hanging Computer Shelves

Xybix healthcare desks are equipped with one or two hanging computer shelves to keep floor areas clear and all wiring concealed/protected. Additional storage options are also available.

A Variety of Lighting Options

Xybix desks are equipped with four different lighting types to suit your exact need. These include desktop task lights, footwell lights, ambient bias lights, and lighting in the monitor arc mounts.

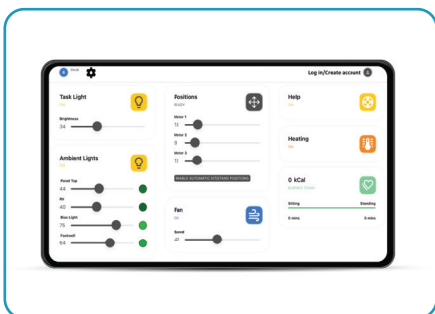

Cable Management

Eliminate clutter and simplify your desk's appearance. Technicians love the protection, easy access, quick changes, and reduced maintenance our end-to-end cable management provides.

Personal Climate Control

Control the environment at your fingertips by using the Axys system. Having control over workspace temperature leads to increased productivity.

AXYS Control System

One simple click adjusts all climate and lighting settings. Another click adjusts the desk height to your custom fit. Save these settings as "scenes" and create as many as you'd like.
