

CinemaVision

New Horizons in Patient Comfort

Transforming the patient's MRI experience, the CinemaVision is a versatile and immersive entertainment system. It provides multiple Audio/Video options from Blu-Ray, DVD, CD, and AUX inputs, while offering two-way communication and dramatically reducing MRI gradient noise. The Visor/Headset combination fits completely within the head coil and operates seamlessly inside the magnet bore with no detrimental effects on signal/noise.

Virtual Command Center ▲

The CinemaVision Controller manages entertainment choices for both the patient and technologist, enables two-way communication with patients, and more.

Ultra-Sleek and Comfortable

CinemaVision's integrated audio-video headset, transducer and visor deliver top-quality entertainment and a virtual MRI comfort zone.

Handsome High-Tech Remote ▼

The CinemaVision remote control puts the functionality of the entire CinemaVision system at your fingertips!

Eliminate appointment cancellations and sedation as patients enjoy a stunning sight and sound experience. With LaserLink technology, installation is just a matter of minutes. Patient set-up is quick and simple. Call today to learn more!
